CLIENT PROJECT:

SAMPLE MOLD TAPE LIFT REPORT

LAB CODE:

TEST METHOD: CEI Method 120

RECEIVED DATE:

REPORT DATE:

Laboratory Director

---

All samples received in acceptable condition. Analytical results are not corrected for field and laboratory blanks.

Test results relate only to the items tested and cannot be extrapolated to anything larger than their original intent. This report may not be reproduced, except in full, without written approval by Eurofins CEI (CEI). CEI bears no responsibility for client sampling methods and makes no warranty representation regarding the accuracy of client supplied information in preparing and presenting analytical results. CEI maintains liability limited to the cost of analysis, except for CEI's own willful misconduct or gross negligence. Interpretation of the analytical results is the sole responsibility of the customer.
